lets discover... **S601-B601**

*Completely renewed range of outdoor screen.
More colors for the filtering fabric, in the
range of grays and sand, plus two colors
RAL effect. Great news for the Blackout
version: 2100mm height and 7 colors
all combined with filtering versions.*

When to use

- Match filtering and darkening
- Wide colors range

When NOT to use

- Critical access for cleaning

lets discover... **S400-SL400**

*The new generation of outdoor screen,
PVC-free and environmentally friendly.
We believe in this product because it
combines textile appearance, much
appreciated by the market, and low
absorption of dirt than a traditional screen.*

When to use

- Textile appearance
- Easy to clean
- Innovative material

When NOT to use

- No blackout version

lets discover...

B100

Interior technical blackout fabric in 13 bright colors, extremely thin and therefore suitable for high altitudes with reduced cassette dimensions.

The light side, facing outwards, is effective to reflect heat in excess. PVC-free.

When to use

- Small cassette blackout

When NOT to use

- Zip models not available

lets discover... **Soft**

For projects where a PVC-free filter sheet is required, Soft has a color range that is suitable for modern style furniture. The height of the roll allows large projects, and is equipped with fireproof certification.

When to use

- Modern furnishing

When NOT to use

- Zip models not available
- Energy and optical data not available

lets discover... **SP100**

*Offering privacy and small thickness,
which may find achievements in
residential context.*

*The color becomes determining factor for
scaling the amount of light; you can play with
the wide color scale.*

When to use

- dimout with small cassette

When NOT to use

- Zip models not available

lets discover... Zeus

If you already know Zeus, choice for the refinement of the final result, you will be amazed of what's new: in addition to the color range with 26 references, we chose suppliers who are absolute Italian excellence in weaving.

When to use

- Privacy for attractive design

When NOT to use

- Workplaces with computer monitor
